

# Assembly Instructions For F2311/6, F2313/4 (E) 10/07

## IMPORTANT TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulbs not included.

1. A. Slip long threaded pipe through fixture wires. Then install by screwing into coupler located at top of fixture.  
B. Slip center pipe, fitter, and fixture loop through fixture wires. Then secure all together by fastening fixture loop onto protruding threaded pipe.
2. Install bottom cover onto bottom of fixture by fastening with finial.
3. Follow enclosed supplement installation instructions for electrical and fixture installation onto house outlet box. If you do not have an outlet box at desired location to attach the fixture, then hire a qualified electrician to create one.
4. Slip candle tube over socket. Next, place check ring on top of candle tube (open side facing down).
5. Install shade by securing with counter ring.
6. Install bulbs (not included). See relamping label located near socket area for type and maximum allowed wattage.
